## Intro

Enthusiastic and dedicated “Cactus Education” student with a four-year education in “Digital School” and a strong passion for coding. Eager to kickstart a career in software development, I am committed to leveraging my technical skills and knowledge to contribute to innovative projects and drive excellence in the field.

## EXPERIENCE

### “Starlabs” Prishtine — *internship*

August 2022 - october 2022

Technologies used : Vuejs, Html, CSS, JS

Tasks:

- Creating vue components
- Fetch and manipulate with data from Api

## EDUCATION

### “Cactus Education” Pristine — Professional School

October 2023 - ongoing

I'm currently a second-year student in a Web and Mobile Development Level V Professional School program. In my first year, I had the opportunity to learn and work on various projects using technologies such as Java, MySQL, and JavaScript. Some of the key projects included a Rent-a-Car web application, a personal portfolio, and a Student Management system developed in Java. Now, in my second year, I'm expanding my skills by working on Spring Boot, UI/UX design, and Android development

### “Digital school”, Prishtine — *Training*

November 2018 - 2023

During the training we started learning things from basic drag and drop coding with Scratch than App Inventor for android development, front end with HTML Css JS PHP, Java/Android and React Native each of them ending with personal project.

## SKILLS

### Programming skills

#### Front end

- HTML/CSS
- Javascript

#### Backend

- Java/SpringBoot
- SQL
- PHP

#### Mobile

- React Native
- Android/Java

#### Graphic Design

- Photoshop
- Illustrator

## LANGUAGES

- Albanian(Native)
- English(B1)

## Certificates

By Digital School:

- Code, Scratch, Appinevtor, HTML,CSS,JS advance, JAVA, PHP advance, Wordpress advance, React Native

By GC design studio:

- Graphic Design(Photoshop, Illustrator)

By Cacctus Education and Cisco

- IT essentials

## Extracurricular activities

- Member of the Coding Club at “Hivzi Sulejmani”, where I participated in coding competitions and hackathons.
- Volunteered as a coding tutor at Don Bosko summer school, helping younger students understand the fundamentals of programming.
